

Military claims: Key experts

Pragma

Pragma's team includes experts with military service, experts who have provided Health and Safety support in military premises and experts with experience of enforcing Health and Safety law in a military context.

[View CV](#)

David Paveley BA(Hons) PGCE, CMIOSH

Dave spent 16 years as a Commissioned Officer in the RAF as a Parachute Jump Instructor and Drop Zone Safety Officer. He worked closely with all branches of the Armed Services, including the Special Forces. Dave was responsible for the management of safety in a wide range of activities including adventure training, combat survival, military and sport parachuting as well the management of a wide range of facilities. In the RAF, Dave carried out numerous accident investigations and provided evidence at Boards of Enquiry, Civil Courts and Coroners Inquests.

[View CV](#)

Justina Sebag-Montefiore BSc LFOH

Justina managed the Occupational Hygiene department of the Royal Naval Dockyard in Devonport for 3 years, supporting the health risk management of over 5,000 workers. Justina's work with the navy included management of asbestos, nuclear risk management and the management of physical risk and hazardous substances in workshops and vessels. Justina has experience of inspecting military facilities including aircraft hangers and RAF storage facilities and equipment repair workshops for activities relating to chemical and asbestos exposure.
